MUD HAZARD IN CITY CENTRE

Of course yesterday was April Fool's Day but it's rather extraordinary for the City to be playing the "jokes." Two motorists were victims when their cars sank down in a refilled excavation right in the heart of downtown Edmonton. W. Richard Morgan tries to figure out what happened after parking on 101 street north of the T. Eaton store.

NO SIGNS WARNED motorists of the danger of cars sinking into an earth-filled excavation on 101 street. Tow trucks had to pull several cars out of the "ditch" yesterday. Mud "ambush" is right alongside meter meters where city exacts toll for parking privileges. Motorist Fred Miller tries to get out of the hole while his passenger, John Zottman, gives advice.

Visitor Reports Insults By Civic Employee Here

Is adding insult to injury the policy of some civic employees toward visitors here?

That's what W. Richard Morgan and his wife believe after their experience of yesterday afternoon.

The Morgans, en route to Vancouver from Winnipeg, hired a U. Drive car with which to make a few social and business calls. Morgan stopped his car on the west side of 101 street, just north of the T. Eaton Co. store at about 2:15 p.m.

DOWN TO HUBCAPS
Front wheels sank down almost to the hubcaps in an earth-filled excavation where a water or gas main had been laid during the winter.

The car refused to budge. Mr. Morgan put through a call to the city engineer's department. A man came with a truck but the truck couldn't pull Morgan's car out.

Mrs. Morgan told the city man "We have to get around town in a hurry." She said the man replied "Well, there's the road. Get going."

She started to say something else and the man from the city told me to shut up. Mrs. Morgan continued "I asked him to repeat what he said and he again told me to shut up."

A garage truck finally pulled the car out of the hole at about 4 p.m. A police agent came along while the city man was there and

BEETLES SAID SIZE OF MAN'S THUMB

YORKTON, Sask., April 2.—(CP)—Trappers and Indians in northeastern Saskatchewan have been reporting recently that large black water beetles, the size of a man's thumb, are driving muskrats out of their homes.

But according to local Chinese, these same beetles, if ground into a powder and taken internally, are a fine thing for "a fixum up the kidney in old man."

In China, they said, the beetles sell for a cent apiece.

Lead Find Interests Ottawa

Mines Department Watches Discovery On Arctic Shore

OTTAWA, April 2.—(CP)—The discovery of a lead mine in the Arctic Ocean, who until yesterday was mines and resources minister, is not likely to blow away in a light wind.

Weighing it down is a ragged bank of dust, silver stuff about the size of a lumberman's fist and suitable for use as a doorstop, as heavy as lead.

As a matter of fact, it is lead—pure, as occurs anywhere in nature. Mr. MacKinnon, now minister without portfolio as a prelude to his expected retirement, received it this week from a famed western bush pilot, Matt Berry.

Berry found it on a claim he staked out along a rocky promontory at Detention Harbor, in Cossack Gulf on the Arctic Ocean, some 400 miles north of Great Slave Lake.

No assay of the ore has been made here, but the Mines department will grant the usual rights to Berry for an independent discovery of the claim.

Meanwhile officials of the mines branch are watching the development with interest. They said they have a report on the ore published in the Edmonton Bulletin yesterday which said that the ore had assayed at 85 per cent lead. This would produce about \$275 worth of lead per ton.

The average lead mine has an assay of six to eight per cent, but officials said the 85 per cent lead, almost pure lead, was not unheard of.

PRICE BIG FACTOR
Usually, however, such deposits were in small pockets of a few hundred pounds. The officials had no knowledge of the size of the Detention Harbor strike.

Mining experts here said it has long been known that lead deposits exist in the neighborhood of Detention Harbor. Early explorations in the area, however, were not early enough to have reported it.

Berry himself, a First World War pilot, is reported to have discovered the vein of galena lead in 1928, on a flight for a mining exploration company. At that time, lead was so cheap no action was taken, but current lead prices might make the deposit worth-while.

BRITANNIA BEACH, B.C., April 2.—(CP)—A mine accident at this mining and smelting town 30 miles north of Vancouver, yesterday claimed the lives of two men.

Dead: John Oliver, 24, Alan Ray Fraser, 20, and Albert Dennis, 20. Witnesses said the men climbed on top of some steel steel as it was hoisted from one level to another on a cable-car system.

One of the steel lengths is believed to have caught on a pulley, crushing the men against other steel bars in the cage.

TEA FOR SALE IN JAPAN
TOKYO, April 2.—(AP)—Coca-Cola to Newcastle department: United States occupation authorities today authorized the Japanese government to offer for sale to its citizens 474 tons of surplus United States army and navy tea.

Tea, said Japan is one of the world's largest producers of tea.

Another car sinks
An employee of C.P. Airlines, Mr. Morgan formerly lived in Edmonton. His car also sank here for several years.

Shortly after the Morgan car sank on the reported incident on 101 street, the Blue Star Canteen Shop, near the car into the same hole and also had to be pulled out with a tow truck.

Mayor Will Probe Matter
Mayor Harry D. Ainley said today he is as yet "without information" on the reported incident on 101 street. The mayor returned from the east late last night and has not been to City Hall.

No city employee has a right to sue to any person as reported. I will look into the matter as soon as possible," he said.

Daylight Time
LONDON, April 2.—(AP)—Britain goes on daylight saving time tomorrow. Clocks will be advanced one hour at 2 a.m. 17 p.m. tomorrow night. Daylight saving time is known as British summer time.

2 Die, 10 Hurt In Die Crash
MONTREAL, April 2.—Two persons were killed and 10 others injured last night when an automobile and a Montreal tramway bus collided at a street intersection in the north end.

Killed were Normandis North, 58, of St. Henri de Mascoche, driver of the automobile and Henri Leveille, 58, of St. Francois de Sales.

Severely injured were Denise Pervault, 25, of Mascoche, a passenger in the car, who suffered a fracture of the left forearm, fractured left leg, fractured jaw and shock, and George Trish, 65, a passenger in the bus who suffered a possible fracture of the skull and was taken to hospital.

The eight other persons injured in the bus required only first aid treatment.

After 10 Years
LONDON, April 2.—(AP)—The 10th anniversary of the night London was bombed is being commemorated today.

Hundreds of electricians have been persuaded along scaffolding this week in a race to get the lights back on by the anniversary.

Some theatres are using flood-lighting because their signs have suffered from too much rain.

The Electric Sign Company, which caters for 30 West End theatres and many houses, said that only half would be re-lit by tonight, but most

Churchill Says Reds Avoid West

Could be Friends If Not for Bars Of Russian Gov't

NEW YORK, April 2.—(AP)—By Winston Churchill said today that it was his "dear wish" that the western nations could become friends of the Russian people—"if we could only get to them."

"It is a great gift to the British people that the Soviet Union people who fought so bravely have been assisted into the position their government has put them in at the present time," Churchill said.

"It is my dear wish that we could be friends of the Russian people. If we could only get to them we would be glad to stretch out the hand of friendship."

The 74-year-old war time prime minister held a press conference before his March 31 Boston speech, at only a few feeting temperatures yesterday. Churchill, who arrived after an overnight train ride from Boston, wore one of his famous "suits."

CHICKEN EGG IS HATCHED BY PIGEON

CHICAGO, April 2.—(AP)—Mrs. Otha Duggan played a joke on her pair of pet pigeons, papa and mamma Buzze. It was when she set April Fool's day joke by 24 hours.

Earlier this month Mrs. Duggan slipped a chicken's egg in the nest which her pigeons had made in the basement of her home. The pigeons kept the egg warm, papa Buzze sitting on it by day and mamma Buzze by night.

Today papa Buzze got a surprise when a little yellow chick broke from the shell. After his first shock, he guarded the nest.

Cloudy, Warm Is Forecast

Cloudy skies in Edmonton this morning suggest no ill weather. Variable cloudiness will continue today, however, but hopes are held for clear skies this evening.

For Sunday is cloudy with temperatures warm and breezes light.

Cooler air will be blowing in today but no great change in temperature is expected.

Temperatures remained in the only a few feeting temperatures yesterday. Churchill, who arrived after an overnight train ride from Boston, wore one of his famous "suits."

Bottom Not Yet Reached Is Belief

The Golden Spike oil well, Imperial Schoep No. 1, is still probing into oil-laden subterranean sands.

Officials of Imperial Oil Limited said today they have not yet any proof that the tremendous well has yet reached the bottom of the oil-bearing zone.

A recent test of the same geyser yesterday gave no water, as has been discovered before, and this taken to mean the well is not yet on bottom.

Today's test was of the bottom five feet of the hole and gave a 15,000 cubic foot gas blow while 2,500 feet of water-free oil was recovered.

It is believed now the water brought to the surface yesterday was from an isolated layer of oil, as has been discovered before, and that drilling chemicals may have entered the water to make it well.

Imperial Oil officials said last night a test of the interval from 5,801 to 5,881 feet gave the usual flow of oil, and when the pipe was pulled it contained, in addition to several thousand feet of oil, 60 feet of salt water at the bottom.

The well is located about 16 miles west of Hinton, Alberta.

If the bottom five feet of the last interval tested was water, and the thickness of the oil zone would be 514 feet. Heats are expected to be 140 degrees.

The balance of the test, the Western Hemisphere last year, raised only 140 feet of oil, and when the pipe was pulled it was extended to 140.

Some coral reef fields in the United States have contained 700 to 800 feet of thickness of oil.

SMALL IN COMPARISON
The field in the Golden Spike is more than 600 feet in depth, but only 30 feet of this contains oil.

The balance of the test, the Western Hemisphere last year, raised only 140 feet of oil, and when the pipe was pulled it was extended to 140.

Deadline Near

Don't leave submitting your entry in the "March The Pulse" contest until the last minute. Be sure it reaches the Bulletin in time for forwarding it now. Submission tonight, midnight, April 2, is deadline time.

N.Y. Strikes Slow Up Taxis, Beer

NEW YORK, April 2.—(CP)—New York was under "dry" snafu from strikers today, with labor disputes giving taxi service and beer production.

Beer taxis still flowed through the city, and there were taxis in the streets, but New York's major breweries, and an estimated 90 per cent of the taxi fleet, were idle.

ONE STRIKE SETTLED
However, one strike with effects in several parts of the world as well as New York was settled early today. The beer strike involved some agreement with the line to settle a dispute mainly involving the use of pilot-operated radio-telephone on the new Stratoscopes. The strike had temporarily grounded aircraft on fields here and outside the country.

The taxi strike was the most serious. This morning four men arrested in the first firestorm of violence—Wien, police, said the four caused a non-striking driver to wreck his car. They were charged with malicious mischief.

23 ARRESTED
The case brought to 23 the number arrested since the strike started early yesterday. Eighteen have been arrested for disorderly conduct or simple assault. The foul today was charged with malicious mischief.

The dispute is between cab operators and John L. Lewis' taxi workers organizing committee, affiliated with Lewis' independent union. The taxi strike involves some 7,000 inside workers and delivery men on the lines of greater job security and improved pay conditions.

The dispute is between cab operators and John L. Lewis' taxi workers organizing committee, affiliated with Lewis' independent union. The taxi strike involves some 7,000 inside workers and delivery men on the lines of greater job security and improved pay conditions.

It Happened TODAY

Commonwealth

It would be a judicial argument, Australia's attorney-general Herbert V. Egan, should win this one. Egan has just finished a 10-hour address to the British Privy Council, urging nationalization of Australia's banks. And Mr. Egan is game for rebuttal of argument against control of the banks. The Australian high court ruled the Banking Act of 1947 unconstitutional.

People

Levy Rita Hayworth couldn't cheer her Prince Ali Khan on to victory in a horse race in France. Prince Ali rode this one home in the second race. He finished last in a field of 16. His stable boy, who was as soon as the Prince's divorce came through.

Little seven-year-old "Nubins" is dead at his Chertsey, Wyo., home. He died out of hospital since he was two. Nubins, who's real name was Forest Hoffman, had been in a coma for a week. He spent several Christmases in hospital with an incurable liver ailment. Recently he told his mother he didn't want to go to hospital any more.

World

Unless the U.S. Congress votes more money in a hurry, the European Recovery Administration will be out of business soon. This was revealed when recovery chief Paul G. Hoffman announced the administration has only \$50,000,000 in unallocated funds. Unless Congress votes more money, the agency will be out of business by Sunday "for all practical purposes," he said.

Politics

The old parliamentary wrangle over voting money by way of government warrants has begun again. John Diefenbaker (PC-Lake Central), said Finance Minister Abbott what would happen if there was a general election before parliament had passed on all expenditures for the coming year. Mr. Abbott said he was sure government warrants would look after the matter, but declined to be drawn into a constitutional issue debate.

The Canadian Senate wants to get rid of the Quebec divorce bill issue. Senator John T. Macdonald, Progressive-Conservative leader in the upper house said, "If parliament does not want to deal with divorce bills it should introduce a bill eliminating the procedure."

B.C. Firm Fires Four Union Men

Row Foreseen Between Trail Mining Company and Workers

TRAIL, B.C., April 2.—(CP)—The Consolidated Mining and Smelting Co. today fired four employees—members of the International Union of Mine, Mill and Smelter Workers Union (I.M.S.W.U.).

Union officials said an "immediate investigation will be launched" to determine why the men were discharged. It said there were reports the men were dismissed because they were believed by the company to be Communists.

ARTICLE CITED

The union said it believed an article printed in the Pacific Tribune, Labor Progressive party newspaper published in Vancouver, also had a connection with the firings. The article was headlined "Consolidated plans an inside job." Pamphlets with a reprint of the article were distributed here.

A company spokesman said: "The men were dismissed for distributing leaflets containing malicious and untrue statements regarding actions and motives of the company." In Vancouver, Ken Smith, district secretary of the I.M.S.W.U., said the union would investigate whether the company "violated the collective bargaining agreement" in dismissing the four employees.

NEGOTIATIONS START

The dismissal came simultaneously with opening of negotiations for a 36 per cent wage boost. B.C. Billingsley, business agent for the union, said, 480 said the pamphlets advocated "going the strike to attain 1949 wage demands."

"We in the union had nothing to do with the pamphlets," Billingsley said. "There is only a small Communist element in the union. As long as the I.M.S.W.U. is recognized as a legal party we can't have them from working nor belonging to the union."

The company has 4,000 employees.

AQUARIUM IS APRIL FOOL TARGET

VANCOUVER, April 2.—(CP)—Vancouver's April Fool, the aquarium, was the target of a series of practical jokes today. The jokes were planned by a group of students from the University of British Columbia. The jokes included putting a fish in a person's pocket, and putting a person in a fish tank.

Over 1,000 Attend 'Little Royal'

VERNICOLA, April 2.—The VSA "Little Royal" and display of work held yesterday was a marked success. The attendance was estimated at over 1,000 and the work shown was of a high character. Exhibitors showed care in instructing and skill in finish and it was well up to previous years.

\$1,000 Fine Levied

TORONTO, April 2.—(CP)—Murray K. Short, 38, a director of the Woodhill Mines Ltd., yesterday was fined \$1,000 or all months in three charges of Swearing Act infractions.

SCIENTIST SAYS:

New Feeds So Strong Animals Bust Seams

MEMPHIS, Tenn., April 2.—Newly developed livestock feeds are so powerful animals burst their seams if fed too much of it. Dr. J. Prebuda, nutritionist at the National Farm Management Council said scientists will have to breed new animals with greater capacity to handle feed.

Farmers are demanding animals that grow faster on less feed so they can increase their profits.

High-energy feeds are rich in vitamins, especially the new vitamin B-12, found in what is called the "animal protein factor." They are also rich in minerals, such as iron, that are not generally found in animal feeds.

Dr. Prebuda said when these feeds are fed to poultry it is like pouring rich coal into a furnace. Rich coal needs a good draft to burn sufficiently. But the birds are not capable of burning feed under draft. They burst the limits of the capacity to handle food, and have a physical breakdown.

Present From Ottawa Still Goes Begging

OTTAWA, April 2.—(CP)—Agriculture Minister Gardiner told western farmers last night he's been offering them a "Kumby" loan for three years and he's getting tired of waiting for someone to take him up on it.

As the Commons considered agricultural matters, he told P. S. Zappitay (Cdn. Daily) that the estimates for three years running have included a \$200,000 loan for special projects similar to those under the Prairie Farm Rehabilitation Act which mainly covers irrigation projects.

So far, he said, there hasn't been a nibble. The government offers pay one-third of such projects with provincial and municipal governments doing the rest.

Mr. Zappitay said there had been neither any commitment nor any approach from the proper source—the Manitoba government. The provincial government in such cases must first state that it considers the project justified.

The Dauphin projects were the first to be considered.

Daughter Tells Court of Finding Mother's Body

BURNABY, B.C., April 2.—(CP)—Perry Jean Baker, 23, charged with the mutilation slaying of a woman here nearly a year ago, yesterday told a jury her mother's body was found in a ditch.

Baker was arrested March 10 in New Orleans and returned to Vancouver to face trial.

The body of her pretty wife, Alana Johnson, 36, was found in a blood-soaked ditch in the couple's bungalow last May 27. She had been bludgeoned to death and there were 42 slash wounds on her body.

Gov't Department Here Will Expand

Inspection Staff Will Be Doubled To Handle Calls

The provincial government's staff of sanitary inspectors will be more than doubled in the near future it was learned today.

The federal government has given its approval for the expenditure of additional funds to increase the staff of inspectors from three to seven, said the provincial health survey committee's quarterly report, released today.

Dr. A. Somerville, chairman of the survey committee, pointed out the provincial government is responsible for sanitary inspections in local improvement districts and is frequently called on for aid to other municipalities. With the small inspection staff previously employed it was not possible to render the necessary service, Dr. Somerville said.

BIG INCREASE

Approval of hospital additions which will increase the number of hospital beds in the province by 36 has already come through from Ottawa, it was learned today.

Included are a 33-bed addition to the hospital at Lacombe, a 28-bed addition at Three Hills and a 34-bed addition at Stettin.

Still awaiting approval is an application for a 22-bed addition to the hospital at Rimbey.

Provincial training grants were also approved in eight cases, the report reveals. The committee recommends that a May 1 deadline be set for applicants for further provincial training grants.

Additional to all Alberta mental institutions will be added under the mental health grants section of the federal government project.

The committee is awaiting federal government approval for a follow-up on the outdated treatment of syphilis patients by artificially induced malaria.

Dr. Somerville explained that doctors had treated syphilis in this manner some time ago, but that the treatment had now been changed to one of artificial fever to raise temperatures in an attempt to get rid of venereal disease.

However, he reported, little effort had been made to follow up on the patients who had been given malaria.

Camera Theft Leads To Jail

For retaining possession of a stolen camera, J. J. G. Riley of Ontario is to get two fewer pieces when he is sentenced to jail. He also will spend three months in jail. It was decided in police court today.

The pictures, full-face and profile, will be taken at the expense of taxpayers in the police files. The three months in jail stemmed from a plea of guilty and a conviction on a retaining stolen goods charge.

Riley told police he got the \$20 camera from a man in a beer parlour who asked him to sell it for him. He could keep anything above \$10 before sentence, he said. "I guess I was just drinking in the wrong company."

Reviewing a long record of convictions in various parts of Canada, Magistrate Miller said:

"I think you have been drinking in the wrong company for a good many years."

Westmount Group Stages Open House

Open house at Westmount Community Hall last night attracted over two hundred residents of the district for a program of recreational highlights.

Recreational activities were in the form of community activity with inter-club reports on boys' and girls' clubs, crafts and games, and musical programs and seasonal sports.

Displays included boys' tumbling by the Camera Gym class, tap dancing by boys and girls of the Westmount Community Hall, and a display of imitation colport made from the well-known "Great Grains" recipe fairly rivaled the genuine article.

ANAF Group Wins Trophy

An Army, Navy and Air Force Veterans' Association dart throwing team is the first to win the monthly competition trophy donated to the newly formed district of the ANAFVA and captain of the winning six-man team.

The trophy, to be completed monthly by veterans' organizations and associations in Edmonton, was given to "Dusty" Lavin, vice-president of the ANAFVA and captain of the winning six-man team.

Each winning organization will retain the trophy in its clubhouse, until another challenging team plays on the defending "champion's" dart boards.

A handcraft display by pre-school age children was shown in connection with the program, and an exhibition of sculpture by Mrs.

Light For Speakers

SUTTON, Surrey, England — (UPI) — Members speaking at Sutton and Chasen council meetings will have to sit down when a red light glows on the several dais.

It will mean they have exhausted their allotted time.

Max Doherty, representative of the Manitoba Paper Manufacturing Company in Winnipeg is in Edmonton on a business visit. He will be here for nine days.

ROUTINE TRIP

Routine business trip to Western Canada brought D. J. Hatfield of the Bell Telephone Company Montreal, to Edmonton today.

IN CITY

Visiting in Edmonton on business for several days is J. S. May, president of Scott-Bathgate company, Winnipeg.

ON BUSINESS

Representative of Evelyn Alden Fashions, Sam Teitelbaum of Montreal, is in Edmonton today on business.

FROM BEAVER LODGE

Among experimental station staffers attending a conference here this weekend are G. S. Stacey and C. H. Anderson of the Dominion Experimental Farm at Beaver lodge.

THESPIAN IS JAILED

LONDON, April 2 — (UPI) — When an 18-year-old youth accused of housebreaking was asked in police court if he objected to being remanded in custody, he replied:

"Yes, I belong to a dramatic society. We are giving a show in a week's time, and I am playing the star part."

Big Radio Auction Goes On Air Here Tonight

ARMY TO THE RESCUE IN COURT AGAIN

The Salvation Army, in the person of welfare officer Major Howard Fisher, once again intervened at court yesterday to help effect the rehabilitation of a young out-of-town woman charged with vagrancy.

Major Fisher assured Magistrate Miller his organization would assist Edith Arnold to go to her home in Grand Prairie.

On that condition, the magistrate ordered a suspended sentence of 12 months and warned accused that she faced a jail term if she broke her \$500 bond.

City Man Recalls First TCA Flight

By Pat McVean

Edmonton realtor L. A. Weber can recall exactly what he was doing ten years ago yesterday.

On April 1, 1959, he bought the first Trans-Canada Air Lines ticket sold in Edmonton, and boarded that company's inaugural flight out of the city.

"I remember the trip very well," Mr. Weber told The Bulletin today. "I said at the time the flight was 'smooth as butter,' today I guess I would have said 'smooth as margarine.'"

The plane he travelled in was painted compared to those that fly the same route today. The Trans-Canada Lockheed, which was used on the inaugural flight, had been replaced by military 24-passenger DC-7s.

Passenger lists have similarly increased. During the entire month of April, 1959, 141 persons boarded the flights out of Edmonton, while ten years later TCA often carries as many passengers in less than three days.

Routes have changed too in the intervening years. In 1959 the Edmonton hop operated as a feeder service between this city and Lethbridge, but by May 1 this year, Edmonton will have direct mail line service by 40-passenger Narx stars.

Other passengers with Mr. Weber to the inaugural flight ten years ago were F. S. Kiley, then manager of Weber Brothers office at Calgary, now retired and living at Victoria, and 11-year-old Norman Walker of Calgary.

The return flight passenger list included M. Zank, Black Diamond merchant, G. D. Alar, Edmonton businessman, and John Southam, Felix Menden and Norman Robson, all of Calgary.

Passenger service was inaugurated by TCA in other parts of Canada the same day, but for the most part bad weather helped the first take-offs.

The Bulletin reported that the east-bound mail line flight "after being dispatched with ceremony and celebration" finally was brought to a halt at Ottawa by snow, rain and sleet, and passengers completed the last lap by train to Montreal."

On The Farm

By Pat McVein
* Ten years ago a choice fed calf went to market at \$6 hundredweight.

Today it brings \$20 a hundredweight.

Between these two centuries are the breed, the feed, the environment, the farmer, the market, the government, the consumer, the processor, the exporter, the importer, the wholesaler, the retailer, the distributor, the manufacturer, the transporter, the packer, the shipper, the handler, the storer, the user, the disposer, the recycler, the transformer, the converter, the creator, the destroyer, the creator, the destroyer, the creator, the destroyer.

But prices aren't. They're still high, higher than they've ever been in more than 20 years, and will, above those of the city dweller.

You don't need to know it at the moment, but the price of the choice fed calf to the city market is now \$20 a hundredweight.

Labor is probably the highest item in the farmer's increased budget.

Ten years ago when Canada was just coming out of the depression, farmers were still expecting the same rate of handling with the same of their never-failing bumper crop.

Of how prices they said, "The butter market is the market, it's cheaper." Of the food market they said, "I can get plenty of food, but I'm not a farmer."

It was too true. The farmer who could live a man for a good two years ago now offers three-and-a-half times the 1930 wage, and many times keeps just as busy.

One of the biggest farms in the world was located between January 1948 and January of this year. The index of farm wages in Canada rose from 27.4 in January, 1948, to 30.2 at the beginning of the year.

It is more than just evidence that during the same period hundreds of bushels of wheat, thousands of bushels of corn, and millions of bushels of soybeans were sold at the same price.

But it isn't only high wages which are changing the farm picture like a runaway roller coaster.

In western Canada, farm building materials have more than doubled in price since 1930. That means the farmer who spent \$100 to build a new shed to house a 60-cow herd in 1930 now spends nearly \$200 for a similar building this year.

Even on a \$300-per-cow herd that runs down the margin of profit, feed used to raise the animal has more than doubled in price during the same period, and the cost of the animal has more than doubled in price since 1930. That means the farmer who spent \$100 to build a new shed to house a 60-cow herd in 1930 now spends nearly \$200 for a similar building this year.

Meanwhile the farmer own cost of the animal has more than doubled in price during the same period, and the cost of the animal has more than doubled in price since 1930. That means the farmer who spent \$100 to build a new shed to house a 60-cow herd in 1930 now spends nearly \$200 for a similar building this year.

Meanwhile the farmer own cost of the animal has more than doubled in price during the same period, and the cost of the animal has more than doubled in price since 1930. That means the farmer who spent \$100 to build a new shed to house a 60-cow herd in 1930 now spends nearly \$200 for a similar building this year.

Meanwhile the farmer own cost of the animal has more than doubled in price during the same period, and the cost of the animal has more than doubled in price since 1930. Soil Conservation Is Concern of All

Study Necessary to Insure Future of Canada's Farms

Why are people talking so much these days about "Soil Conservation"? Probably a scarcity of food in many places has caused more and more people to realize that food comes from the top-soil of farms. "Soil Conservation" merely means saving the soil for production—tomorrow and a hundred or a thousand years hence.

In Canada, we have only recently passed the "pioneer" stage of our history, only a generation or two ago—there was much new land to be "cleared" and taken for the production of food.

Where land has been produced from many kinds under various methods of treatment, some good, some bad, there is a growing realization that some of these soils are not as productive as they were in earlier days.

POOR YIELDS
We frequently hear farmers and others talking about poorer yields and soil-drops.

This problem is not merely of interest to the farmers but of the whole of the country, for the production of the food which supplies us with food, this matter is one which concerns all the people of this country and the people of other countries who may export food supplies from us.

Where land is run-down or worn out, it is due to misuse. In Alberta, some of the land which was cleared by pioneers, now has been used for agricultural use and should be replanted with trees that will be conserving the soil for a useful purpose.

NOT PRODUCING
Much of our tillable land is not now producing either the quantity or quality of crops formerly grown because of serious depletion of soil fertility.

Years of continuous cropping without returning to the soil sufficient vegetable matter, with our thought of the results of constant washing, and without replacement of mineral plant foods sold from the land, has greatly reduced the ability of such soils to produce good yields of nutritious crops.

What can be done to save our soil so that they may continue to be productive for the future generations of our people?

Study and understanding of the whole situation is the first step. Each farm presents its own special problems. Only when land owners are shown that it will pay to conserve soil, any real results be hoped.

The situation is not new, many farmers have realized that their land was not as good as it used to be, but have not known what to do about it. It is more than their problem; it is one which is of vital interest to every citizen.

Experts Study Effects Of Drink On U.S. Bull

Scientists in Wisconsin have reported on the effects of whisky on a bull.

"The thing that intrigued us was this," comments the Saskatoon Post-Examiner, "do they figure out in advance whether two or three or four slugs raise the animal to fury as the better part of wisdom is, as a cattleman put it, 'to run for the barn'?"

We would judge, from what we have heard about bulls, that knowing his point he advances would be nearly as important as knowing in advance the point at which chain reaction begins in an atomic pile.

The story rather pointedly hints that bulls readily accept a "fighting jae."

We should also like to know, in the interest of science of course, whether any bull at a particular point in his position breaks down and weeps out to his keeper the sad story of his life.

APPOINTMENT OF Dr. Frank P. Graham, 82, president of the University of North Carolina, to the U.S. Senate has been announced.

Dr. Graham, who helped draft President Truman's controversial civil rights program, replaces the late Sen. J. Melville Branch.

B. Richardson Quits
WINNIPEG, April 2.—(C.P.)—B. T. Richardson has resigned as editor of the morning Winnipeg Citizen, a post he had assumed in October, 1947, it was learned yesterday.

Mr. Richardson formerly had been editor of the Saskatoon Star-Phoenix.

U.S. Agronomist Is Dead At 73
NEW YORK, April 2.—(AP)—Dr. Joseph A. Brown, 73, noted agronomist and colonization leader died Thursday night at his home here.

He was discoverer of "Rosen Rice," a variety of winter rice now grown in many parts of North America.

SETTING A NEW WORLD STANDARD OF LOW-COST MOTORING

Everything about it tells you this new

CHEVROLET

is the most Beautiful **BUY** *of all*
...in all these features
and in all these ways!

Look at this new Chevrolet, inside and outside! Consider it from every point of view and on every point of value!

We believe you'll agree it's the most beautiful buy for smartness and distinction, for comfort and roominess, for driving and riding ease, for performance and safety... because it offers feature after feature of costlier cars at the

lowest prices and with all the economy of operation and upkeep for which Chevrolet is famous.

You'll find that now more than ever before Chevrolet merits the title of being "first for quality at lowest cost"; and that it is, indeed, *the most beautiful buy of all*, in all these features and in all these ways.

First for Quality
at Lowest Cost

EDMONTON MOTORS LIMITED

South Branch—109th Street and 85th Avenue

West Branch—115th Street and Jasper Avenue

BEAUTIFULLY SITUATED on the shores of Round Lake, seen on the left, is the railway town of McLennan. Above is a residential section of the town which boasts a population of 1,000. Community came into being in 1915, although there were a number of homesteaders prior to that date.

Many City Firms Involved

A number of Edmonton firms assisted in the construction of the new McLennan hotel.

Architect firm of Patrick Campbell-Hope, designed and drew the plans for the new hotel.

Other local firms who had a hand in the construction are: W. B. Zeidler Limited, Super & Singletree, Don P. Hume, Macleod & Jones Lumber Company and Northern Hardware.

McLennan, established in 1915.

Dead Chinese Is Found In Fraser River

STEVESTON, B.C., April 2.—(C.P.)—The body of a Chinese laundryman was found yesterday in the bed of the Fraser River.

Provincial Police are investigating the possibility of foul play.

Traces of blood were found around the nose and a bruise on the right cheek of Wong Wing Jim, 46, who disappeared from his laundry 15 days ago.

Police say the Chinese appeared to have been struck in the face. An autopsy has been ordered.

A fellow employee, Wong Shew, told police Jim disappeared following a "scuffle" and a "quarrel."

Two men have been jailed for retaining Wong Shew as he searched the dark waterfront for Jim.

The Rainbow Bridge which spans the gorge between Niagara Falls, Ont. and Niagara Falls, N.Y., has an overall length of 1,450 feet, including the steel arch of 960 feet.

Old Timers See Big Future Ahead

Tales of McLennan Are Many, Varied and True

One of the first settlers in McLennan district was the late Leon Giroux.

Tales of the exploits of this pioneer in the early days are legends.

A tapper, trader and adventurer of the north for several years, Giroux finally settled along the shores of Round Lake in the spring of 1914, erecting a small log cabin.

At that time the site was no more than a stopping off place for north trappers and was known as Round Lake.

The following year, 1915, with the arrival of steel more settlers came into the area and Leon Giroux erected the town's first trading store and hotel.

Business progressed for the French Canadian adventurer and in 1920 he persuaded his brother, J. T. Giroux, to still a resident.

feet before we struck water and it was a long tedious job."

"The sisters at the convent were next to have a well constructed and two other residents of the community followed suit," he added.

Water supply for the town is obtained from artesian wells.

Recounting pioneer days Giroux told how settlers built the community.

"They had great community spirit in the old days," he said. "Of course they still have but it's not the same pioneer spirit" he added.

GOOD MEMORY

"Why I remember when men and women would get together for a big winter roast right in the main street and discuss community improvements. Then they'd get together and help each other build cabins, schools, social hall and built men and women would get together and help grade the streets. Those were the days," he added.

The pioneer merchant is the community's greatest booster. "Why McLennan is only just starting to grow," he said. "It will continue to get bigger yearly and with the development of the north which is progressing steadily, some day in the near future, McLennan will be quite a settlement."

While many of the residents share his enthusiasm, Mayor W. Kirkland is another great booster.

Residents of the town on the whole are confident of a prosperous future for their settlement, which they contend is assured with the development of the north country now in progress.

Churchill Autographs

Famous Cigarette Case

BOSTON, April 2.—(U.P.)—

Winston Churchill yesterday autographed a silver cigarette case that belonged to the late Webb Miller, United Press war correspondent and European news manager who was killed in

a London blackout accident in 1940.

The 74-year-old former prime minister remarked that he had sent a message of condolence to Miller's family on the occasion of his death and added:

"He was a truly great correspondent."

Churchill added his signature to the case bearing those of Benito Mussolini and Mohandas K. Gandhi, both of whose policies he opposed violently while they were alive.

Others of the world's famous personalities who have signed the case include Adolf Hitler, George Clemenceau, Lloyd George, Vittorio Orlando, Gen. John J. Pershing, President Franklin D. Roosevelt and Mrs. Eleanor Roosevelt.

Churchill autographed the case for his present owner, Miller's only son, Kenneth, who is now a United Press staff correspondent.

Congratulations McLennan Hotel!

The Community of McLennan has progressed steadily for 33 years and is looking forward to greater expansion.

A Secure and Prosperous Future!

McLennan Group Is Progressive

Chamber of Commerce Sparks Most New Moves

The McLennan Chamber of Commerce is a very active body under president Dr. H. W. Fish, who is a leading booster of McLennan and devotes a lot of time to Chamber of Commerce work for any economic or social project which will benefit McLennan or the Peace River district.

Vice-president this year is Major W. C. Killam. Treasurer is George Gagne, manager of the bank of Toronto. The secretary is George Stevenson.

The Chamber of Commerce has 150 members and is the most of the town.

Red Skelton Star Of Civil War Film

'A Southern Yankee' Gives Carrot Top Great Chance

Red Skelton, who last gave you his version of the Fuller Brush Man, now shows you what he can do with a Civil War epic! The new Skelton metamorphosis takes place on the Empress screen starting Monday in the howling comedy "A Southern Yankee".

And if you don't think a Civil War picture can be both a Southern comedy and a Yankee one, haven't you seen Skelton's previous work? Skelton is an extraordinary piece of dramatic machinery.

FUNNIEST SOLDIER

There has surely never been so funny a soldier as Andrew the drummer and drumming bellows. He is a member of the United States Secret Service and is the South's most famous and elusive spy, the G.I. Spy.

A trail of hilarious events makes Andrew become a spy for both sides, and this time he has to outguess the enemy and outwit the Confederates in the midst of the war.

Added attraction with "A Southern Yankee" is "The Children's War".

CURTAIN TIME

CAPITOL—ROAD HOUSE. Features at 12:30, 2:30, 4:30, 6:30, 8:30, 10:30.

RIALTO—AMERICAN HAY. Features at 12:30, 2:30, 4:30, 6:30, 8:30, 10:30.

EMPRESS—JUNE BRIDE. Features at 12:30, 2:30, 4:30, 6:30, 8:30, 10:30.

STRAND—NIGHT TIME IN SIERRA. Features at 12:30, 2:30, 4:30, 6:30, 8:30, 10:30.

MGM'S NEW STARLET, Arlene Dahl and Red Skelton now in the new and best in "A Southern Yankee", which opens at the Empress Theatre Monday.

MacKinnon Resigns Post In 3-Way Cabinet Shuffle

By George Kitchen

EDMONTON, April 2.—(UPI)—The cabinet shuffle in Ottawa today was a three-way game, with MacKinnon resigning his post as minister of health and becoming a backbencher, and the other two ministers, St. Laurent and Bennett, both resigning their posts as well.

MacKinnon's resignation was announced by St. Laurent, who said that MacKinnon had decided to resign his post as minister of health and become a backbencher. St. Laurent said that MacKinnon's resignation was a personal decision and that he was not being forced to resign.

St. Laurent also announced that Bennett was resigning his post as minister of finance and becoming a backbencher. St. Laurent said that Bennett's resignation was also a personal decision and that he was not being forced to resign.

The cabinet shuffle was a surprise to many observers, who had expected a more gradual change in the government. The resignations of MacKinnon and Bennett were seen as a major blow to the government.

St. Laurent said that the government was still committed to its policies and that the resignations were a necessary part of a reorganization of the cabinet.

The cabinet shuffle was a major event in Canadian politics, and it was widely expected that it would lead to a new government. However, St. Laurent said that the government was still committed to its policies and that the resignations were a necessary part of a reorganization of the cabinet.

FUN-PACKED FILM SHOWING AT THE RIALTO

There's something new in the Rialto! Comedians Bud Abbott and Lou Costello are taking their fun-loving fans for a rollicking ride in their latest comedy, "A Southern Yankee".

The film is a hilarious comedy that shows the two comedians in a series of hilarious situations. The film is a must-see for anyone who enjoys a good laugh.

Defence Town Now Ralston

SUFFIELD MILLS, April 2.—(UPI)—The town of Ralston, Alberta, is now known as Defence Town.

The town was renamed in honor of the Canadian Armed Forces, who have a large presence in the area.

The renaming was announced by the local government, and it was widely expected that it would lead to a new government.

The town of Ralston is now known as Defence Town, and it is a major center for the Canadian Armed Forces.

Inside Hollywood

By Alvin Karpis

HOLLYWOOD, (UPI)—Real emotions were stirred in the hearts of the Hollywood elite when the news came that the famous actress, Arlene Dahl, was to marry the famous actor, Red Skelton.

The news was a surprise to many observers, who had expected a more gradual change in the government. The resignations of MacKinnon and Bennett were seen as a major blow to the government.

St. Laurent said that the government was still committed to its policies and that the resignations were a necessary part of a reorganization of the cabinet.

The cabinet shuffle was a major event in Canadian politics, and it was widely expected that it would lead to a new government. However, St. Laurent said that the government was still committed to its policies and that the resignations were a necessary part of a reorganization of the cabinet.

YOU MAY HAVE A SPLASHING GOOD TIME

LETH AND LEMER Both Douglas is an expert swimmer and knows of hundreds of girls and boys who make swimming their favorite sport. Both, who work with the department of health and education at the YWCA, wants every one of her pupils to enter in competition at the boys and girls' fair. They train and single entrants are classified.

TEMPTING HOME-BAKED GOODIES ARE PRIZE WINNERS

PRIZE WINNERS in the home-baked goods contest are the girls and boys who have won the contest. The contest is a great opportunity for girls and boys to show their talents and to win prizes. The fair is a great opportunity for boys and girls to enjoy themselves and to show their talents.

Cushioned Hassock Also Record Cabinet

By HES Thrifty

At last I've found the perfect place to keep my record albums!

This is a smart hassock, covered with leatherette, with the interior divided to hold nine albums. For \$7.95 you get a fine square or rectangular effort padded and covered in leatherette.

It's a smart piece of furniture, and it's also a record cabinet to store those beloved records.

For \$27.50 it's a chair... but for a lot less you could make the very same thing with padding, any size box and a couple of yards of leatherette. It sells at \$10.00 and \$14.95 per yard; you could make the record cabinet.

Patterns

By Anne Adams

Now you can have a dress of 100% rayon or 100% cotton, or a combination of the two. The dress is made of a fine, lightweight fabric, and it's perfect for the spring and summer months. It's a simple, elegant design that will be popular with all ages. The dress is available in a variety of colors, and it's priced at a very reasonable rate. If you're looking for a new dress, this is the one to get.

DOROTHY DIX SAYS

Overworked Husband Can't be Entertaining

My husband is a very busy man. He works long hours every day, and he's always tired when he gets home. I don't think he has time to entertain me or our friends. I feel like I'm the only one who has to take care of everything at home. I'm a housewife, and I have to cook, clean, and take care of the children. I don't have time to relax or have fun. I feel like I'm always working, and I'm never satisfied with what I've accomplished. I wish my husband could help me out more, but he's just too busy.

League Views Ideal Centre

The League of Women Voters has chosen the new building as an ideal center for its activities. The building is a beautiful, modern structure that will provide a great place for the League to hold its meetings and conduct its work. The building is located in a convenient location, and it's easy to get to. The League is very pleased with the new building, and it's sure that it will be a great asset to the community.

Carelessness Costs Team 1,000 Points

By William McNamee

One of the most common mistakes made by bridge players is carelessness. This can cost a team a lot of points, and it can be very frustrating. Players should always be careful and pay attention to the cards they are playing. They should also be aware of their partner's cards and try to work together to win the game.

YOUR BABY AND MINE

Parental Emotions Cause Punishment

By Myrtle Meyer Eldred

Because parents are human beings and try to give motives for conduct of which they are ashamed, they punish the child's behavior to which they are repelled.

Because parents are human beings and try to give motives for conduct of which they are ashamed, they punish the child's behavior to which they are repelled.

In the planning of homes where costs must be kept to a minimum, proper architecture and engineering experience is vital, room sizes should first be determined to suit family needs, then dimensioned to fit stock lumber lengths. In the case of the "Millward" the depth of 24-in. utilities 12 and 14 foot lengths without waste. If no consideration is given to timber sizes, it might require at least 10% more lumber with a net result of little benefit to the owner.

The accompanying design has many commendable features. Convenience and simplicity are combined to produce a plan in which there is no waste space. Some so-called authorities on home economics insist that there should always be a hall to connect the kitchen with front entrance. This is usually more costly as it is accomplished with a considerable sacrifice of livable space.

EDMONTON BULLETIN, Saturday, April 2, 1949 31

Calgary Health Grant Disappoints Medical Officer

CALGARY, April 2.—(C.P.)—The city of Calgary, as a result of a decision by the provincial government, will receive only approximately one-third of its possible share in a federal public health grant to Alberta, Dr. W. H. Hill, medical officer of health, informed city council in a letter released yesterday.

From the dominion grant of \$287,000 to the province, to be used for public health measures on the basis of 25 cents a head, Calgary will receive only \$10,000, on the basis of 25 cents a head.

The city had originally hoped to receive \$55,000 through the annual grants.

Western anthropologists estimate that African civilization is some 30,000 years old.
